

Order Form and Measuring Kit

FOOT TRACING

1. Put on socks that you regularly wear with cowboy boots. Ideally, a friend should assist in the process.
2. Use only a #2 pencil so we know the diameter and its radius offset.
3. When drawing outlines, put your weight on each foot independently.
4. Hold pencil straight up, perpendicular to the floor so the pencil offset is uniform.

LEFT FOOT

Your Name _____

Johnny Cowboy 1861 N. Grand Ave Nogales, Az. 85621
